SOUND

Bluetooth Music Receiver appBT04

This bluetooth music receiver allows you to provide wireless connectivity to your traditional stereos. You can transmit audio signals wirelessly via bluetooth and once connected you can play your favorite music from your Smartphone or iPhone. It's as easy as plugging your auxiliary output to the auxiliary input of your stereo and pair your Smartphone via Bluetooth to APPBT04. Furthermore, with its high capacity internal battery you can enjoy up to 10 hours of uninterrupted music.
